

- Warning: Do not store the battery in a humid environment or near a high temperature heat source to avoid danger.
- 警告: 危険防止のため、湿気の多い場所や高温の熱源の近くにバッテリーを保管しないでください。
- Avertissement : Ne pas stocker la batterie dans un environnement humide ou près d'une source de chaleur à haute température pour éviter tout danger.
- Warnung: Lagern Sie die Batterie nicht in einer feuchten Umgebung oder in der Nähe einer Wärmequelle mit hoher Temperatur, um Gefahren zu vermeiden.
- Attenzione: Non conservare la batteria in un ambiente umido o vicino a una fonte di calore ad alta temperatura per evitare pericoli.
- Advertencia: No guarde la batería en un ambiente húmedo o cerca de una fuente de calor de alta temperatura para evitar peligros.
- Waarschuwing: Bewaar de batterij niet in een vochtige omgeving of in de buurt van een warmtebron met hoge temperatuur om gevaar te voorkomen.

Specification Product Name: 2000mAh battery Rated Voltage: 14.4V Max Voltage: 16.8V Battery Capacity: 2AH Charging Voltage: 16.8V-1.0A Watt-hour: 28.8WH Made in China	製品仕様 製品名 2000mAhバッテリー 定格電圧: 14.4V 最大電圧: 16.8V バッテリー容量: 2AH 充電電圧: 16.8V-1.0A ワット時: 28.8WH 中国製	Spécification Nom du produit : Batterie 2000mAh Tension nominale : 14.4V Tension maximale : 16.8V Capacité de la batterie : 2AH Tension de charge: 16.8V-1.0A Watt-heure : 28.8WH Fabriqué en Chine	Spezifikation Produktname: 2000mAh-Akku Nennspannung: 14.4V Maximale Spannung: 16.8V Batteriekapazität: 2AH Ladespannung: 16.8V-1.0A Wattstunden: 28.8WH Hergestellt in China

BATTERY MAINTANENCE

- 1 . To prolong the battery life , please charge the new battery for more than five hours before the first time use.
- 2 . For batteries that will not be used for a long time , please charge the batteries once every three months to prolong the service life of the batteries.
- 3 . A new battery or a battery that has not been used for a long time requires five charge-dis -charge cycles to reach the rated capacity.
- 4 . When the battery power is low , the cutting force of the machine will decrease.
- 5 . Do not charge frequently , it will shorten the life of the battery . Please replace the battery and charge the dead battery when the power light goes out or when you feel the cutting force drop.
- 6 . Do not charge the battery outdoors in the rain.
- 7 . Do not store the battery in a humid environment or near a high temperature heat source to avoid danger.
- 8 . Use Genuine Charger and battery Only : Using a non-genuine charger or battery can be dangerous and cause damage.
