

Warning: Do not store the battery in a humid environment or near a high temperature heat source to avoid danger.
警告: 危険防止のため、湿気の多い場所や高温の熱源の近くにバッテリーを保管しないでください。
Avertissement : Ne pas stocker la batterie dans un environnement humide ou près d'une source de chaleur à haute température pour éviter tout danger.
Warnung: Lagern Sie die Batterie nicht in einer feuchten Umgebung oder in der Nähe einer Wärmequelle mit hoher Temperatur, um Gefahren zu vermeiden.
Attenzione: Non conservare la batteria in un ambiente umido o vicino a una fonte di calore ad alta temperatura per evitare pericoli.
Advertencia: No guarde la batería en un ambiente húmedo o cerca de una fuente de calor de alta temperatura para evitar peligros.
Waarschuwing: Bewaar de batterij niet in een vochtige omgeving of in de buurt van een warmtebron met hoge temperatuur om gevaar te voorkomen.

<p>Specification Product Name: 2000mAh battery Rated Voltage: 18V Max Voltage: 21V Battery Capacity: 2AH Charging Voltage: 21V-1.0A Watt-hour: 36WH Made in China</p>	<p>製品仕様 製品名 2000mAhバッテリー 定格電圧: 18V 最大電圧: 21V バッテリー容量: 2AH 充電電圧: 21V-1.0A ワット時: 36WH 中国製</p>	<p>Spécification Nom du produit : Batterie 2000mAh Tension nominale : 18V Tension maximale : 21V Capacité de la batterie : 2AH Tension de charge: 21V-1.0A Watt-heure : 36WH Fabriqué en Chine</p>	<p>Spezifikation Produktname: 2000mAh-Akku Nennspannung: 18V Maximale Spannung: 21V Batteriekapazität: 2AH Ladespannung: 21V-1.0A Wattstunden: 36WH Hergestellt in China</p>

- BATTERY MAINTANENCE**
- To prolong the battery life , please charge the new battery for more than five hours before the first time use.
  - For batteries that will not be used for a long time , please charge the batteries once every three months to prolong the service life of the batteries.
  - A new battery or a battery that has not been used for a long time requires five charge-dis -charge cycles to reach the rated capacity.
  - When the battery power is low , the cutting force of the machine will decrease.
  - Do not charge frequently , it will shorten the life of the battery . Please replace the battery and charge the dead battery when the power light goes out or when you feel the cutting force drop.
  - Do not charge the battery outdoors in the rain.
  - Do not store the battery in a humid environment or near a high temperature heat source to avoid danger.
  - Use Genuine Charger and battery Only : Using a non-genuine charger or battery can be dangerous and cause damage.
